\*Each of the polymer products bid were tested for their effectiveness in treating District sludge by the District's Operations Department. The evaluations were complete and adjustment factors were tabulated prior to the bid opening as specified in the bid documents. The cost adjustment equates the effectiveness of each of the polymers into dollars and cents giving a truer price-to-performance comparison.

Disclaimer: The total dollar amount is based upon an estimated quantity that the District will use during the period of April 6, 2007 through June 30, 2008. The actual quantity and grand total may vary, but unit prices are firm.
