

**South Tahoe Public Utility District
Turf Buy-Back Program 2007
Landscaper Certification Contract**

I. Landscaper Eligibility

I understand that to become a South Tahoe Public Utility District certified landscaper for the Turf Buy-Back Program I need to have an active California Landscape Contractors License (C-27) and an active City of South Lake Tahoe Business License. Recognizing that this program only caters to the residents within the city of South Lake Tahoe or the Tahoe Basin portion of El Dorado County, I acknowledge that my business is run out of this same region.

Name _____

Business _____

CA C-27 License # _____

City of SLT Business License # _____

Landscaper Business Address _____

II. Acknowledgments

I acknowledge that I have read and understand the terms of the District's Turf Buy-Back Program. Recognizing that this program is grant funded, I understand that some of the information regarding APN and water usage may be released to other agencies to determine the effectiveness of this program. While the majority of my work will be based on the honor system, I accept that any work under this program may be periodically audited. Any intentional abuse of this program will cause my certification by the District to be revoked and my business could potentially be responsible for reimbursing the District.
