RESOLUTION NO. 3324-25

**A RESOLUTION BY THE BOARD OF DIRECTORS
OF THE SOUTH TAHOE PUBLIC UTILITY DISTRICT AUTHORIZING AND DIRECTING ITS STAFF
TO REQUEST THE REVOCATION OF CERTAIN SURFACE WATER RIGHTS**

WHEREAS, the South Tahoe Public Utility District ("STPUD") currently holds water rights A018021, A018030, A018031, A018038, A018039, and A019629, originally acquired from Tahoe Paradise Water Company, allowing for diversions from the Upper Truckee River, Coyote Creek, and an unnamed tributary to Saxon Creek; and

WHEREAS, STPUD has never developed facilities to divert, treat, or distribute water under these water rights, and intake, treatment, and distribution infrastructure do not exist; and

WHEREAS, due to water quality, quantity, and environmental constraints, it is not cost-effective or practical to exercise these water rights, and the District is instead pursuing a water right under A023393 to Lake Tahoe for 10,808 acre-feet; and

WHEREAS, in accordance with Water Code and State Water Resources Control Board regulations, STPUD may request the revocation of water rights that are no longer used and for which the reservoir or diversion facilities are incapable of storing or diverting water;

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of South Tahoe Public Utility District hereby:

(1) Authorizes and directs the Staff to submit to the State Water Resources Control Board six (6) Requests for Revocation of Water Rights (A018021, A018030, A018031, A018038, A018039, and A019629) on behalf of the District, true and correct copies of which are attached hereto as exhibits 1 through 6.

(2) Requests full revocation of these water rights on the grounds that the reservoirs or diversion facilities no longer exist or are incapable of storing or diverting water and no water is used under these rights.

(3) Waives Districts hearing and notice rights otherwise required for the processing of the requests for resolution stated herein.

(4) Directs Staff to take any and all actions necessary to effectuate the revocation of these water rights.

WE, THE UNDERSIGNED, do hereby certify that the above and foregoing

1 Resolution No. 3324-25 was duly and regularly adopted and passed by the Board
2 of Directors of the South Tahoe Public Utility District at a Regular meeting held on
3 the 4th day of December, 2025, by the following vote:

4 AYES:

STATE WATER RESOURCES CONTROL BOARD
DIVISION OF WATER RIGHTS

License for Diversion and Use of Water

APPLICATION 18021

PERMIT 13526

LICENSE 10608 (over)

THIS IS TO CERTIFY, That

TAHOE PARADISE WATER AND GAS COMPANY
P. O. BOX 11117, TAHOE PARADISE, CALIFORNIA 95705

HAS made proof as of JUNE 10, 1971 (the date of inspection)
to the satisfaction of the State Water Resources Control Board of a right to the use of the water of
AN UNNAMED CREEK IN EL DORADO COUNTY

tributary to, SAXON CREEK THENCE TROUT CREEK THENCE LAKE TAHOE

for the purpose of DOMESTIC USE

under Permit 13526 of the Board and that the right to the use of this water has been perfected
in accordance with the laws of California, the Regulations of the Board and the permit terms; that the
priority of this right dates from FEBRUARY 28, 1958 and that the amount of water to which
this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated
purposes and shall not exceed TWENTY-SEVEN HUNDREDTHS (0.27) CUBIC FOOT PER SECOND,
TO BE DIVERTED FROM JANUARY 1 TO DECEMBER 31 OF EACH YEAR. THE MAXIMUM AMOUNT
DIVERTED UNDER THIS LICENSE SHALL NOT EXCEED 124 ACRE-FEET PER YEAR.

THE POINT OF DIVERSION OF SUCH WATER IS LOCATED:

SOUTH 14°35'57" EAST 821.41 FEET FROM N1/4 CORNER OF SECTION 33, T12N, R18E,
MDB&M, BEING WITHIN NW1/4 OF NE1/4 OF SAID SECTION 33.

A DESCRIPTION OF LANDS OR THE PLACE WHERE
SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

WITHIN SECTIONS 19, 28, 29, 30, 31, AND 32, T12N, R18E, MDB&M; SECTIONS 5,
6, AND 8, T11N, R18E, MDB&M, AS SHOWN ON MAP FILED WITH STATE WATER RESOURCES
CONTROL BOARD.

THE TOTAL AMOUNT OF WATER APPROPRIATED BY DIRECT DIVERSION UNDER THIS LICENSE
TOGETHER WITH THAT DIVERTED UNDER PERMITS 13527, 13528, 13529 AND 13530
(APPLICATIONS 18030, 18031, 18038 AND 18039) SHALL NOT EXCEED 345 ACRE-FEET
IN ANY CALENDER MONTH OR 2,360 ACRE-FEET IN ANY YEAR.

{For full information concerning the filling out of this form refer to Article 4 of Rules and Regulations Pertaining to Appropriation of Water}

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 18030 Filed March 6, 1958, at 4:19 P.M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

I, Meyers Water Company Notice of Assignment (Over)
Name of applicant or applicants
of Meyers County of El Dorado
Address
State of California, do hereby make application for a permit to appropriate the following described unappropriated waters of the State of California, *SUBJECT TO VESTED RIGHTS*:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is Unnamed Stream
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
located in El Dorado County, tributary to Upper Truckee River

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use 3.0 cubic feet per
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day
second, to be diverted from January 1 to December 31 of each year.
Beginning date Closing date

(b) For diversion to be stored and later applied to beneficial use _____ acre-feet
1 acre-foot equals 325,851 gallons
per annum, to be collected between _____ and _____ of each season.
Beginning date Closing date

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is Domestic
Domestic, irrigation, power, municipal, mining, industrial, recreational
_____ purposes.

4. The point of diversion is to be located N65° 07' 40" E 4080 feet from SW corner of Section
State bearing and distance or coordinate distances from section or quarter section corner
30, T12N, R18E, MDB&M,
being within the NW¹ of SE¹
State 40-acre subdivision of public land survey or projection thereof
of Section 30, T. 12N, R. 18E, M. D. B. & M., in the County of El Dorado

5. The main conduit terminates in none of Sec. _____, T. _____, R. _____, B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping from Sump
Sump, offset well, unobstructed channel, etc.

(b) Diversion will be by gravity, the diverting dam being _____ feet in height (stream bed to level of overflow); _____ feet long on top; and constructed of _____
Concrete, earth, brush, etc.

(c) The storage dam will be _____ feet in height (stream bed to spillway level); _____ feet long on top; have a freeboard of _____ feet, and be constructed of _____
Concrete, earth, etc.

7. Storage Reservoir _____
Name

The storage reservoir will flood lands in _____
Indicate section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of _____ acres, and a capacity of _____ acre-feet.

In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

8. Conduit System (describe main conduits only) **None, water will be pumped directly into mains**

(a) Canal, ditch, flume: Width on top (at water line) / _____ feet; width at bottom _____
Cross out two not used

feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials
of construction _____
Earth, rock, timber, etc.

(b) Pipe line: Diameter _____ inches; length _____ feet; grade _____ feet per
1,000 feet; total ^{fall} from intake to outlet _____ feet; kind _____
Riveted steel, concrete, wood-stave, etc.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion conduit or pumping plant proposed is **3.0 cfs**
State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is **\$6000**
Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. Construction work will begin on or before **June 1, 1962**

Construction work will be completed on or before **June 1, 1963**

The water will be completely applied to the proposed use on or before **June 1, 1965**

Description of Proposed Use

11. Place of Use. **See supplement.**
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land

survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.

Do(es) applicant(s) own the land whereon use of water will be made? **NO** Jointly? _____
Yes or No Yes or No

All joint owners should include their names as applicants and sign application at bottom of third page.

Most of land is under option to Tahoe Paradise Homes, the parent company.

If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

Nature of Right (riparian, appropriative, purchased water, etc.)	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1.				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. Irrigation Use. The area to be irrigated is _____ acres.
State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres;
orchard _____ acres; general crops _____ acres; pasture _____ acres.

NOTE.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about _____ and end about _____
Beginning date Closing date

14. Power Use. The total fall to be utilized is _____ feet.
Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
Second feet × fall ÷ 8.8

The use to which the power is to be applied is _____
For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water ^{will} be returned to _____ in _____ of
will not Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M. _____

Exhibit 3

[For full information concerning the filling out of this form refer to Article 4 of Rules and Regulations Pertaining to Appropriation of Water]

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 18031 Filed March 6, 1958, at 4:19 P.M. (Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

Notice of Assignment (Over)

I, Meyers Water Company of Meyers County of El Dorado State of California, do hereby make application for a permit to appropriate the following described unappropriated waters of the State of California, SUBJECT TO VESTED RIGHTS:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is Upper Truckee River located in El Dorado County, tributary to Lake Tahoe

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use 3.00 cubic feet per second, to be diverted from January 1 to December 31 of each year.

(b) For diversion to be stored and later applied to beneficial use acre-feet per annum, to be collected between and of each season.

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed.

3. The use to which the water is to be applied is Domestic purposes.

4. The point of diversion is to be located S58° 55' W 1320.00 feet from NE corner of Section 31, T12N, R18E, MDB&M,

being within the NE 1/4 of NE 1/4 of Section 31, T. 12N, R. 18E, M.D. B. & M., in the County of El Dorado

5. The main conduit terminates in of Sec. T. R. B. & M.

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping from Sump

(b) Diversion will be by gravity, the diverting dam being feet in height (stream bed to level of overflow); feet long on top; and constructed of

(c) The storage dam will be feet in height (stream bed to spillway level); feet long on top; have a freeboard of feet, and be constructed of

7. Storage Reservoir

The storage reservoir will flood lands in

It will have a surface area of acres, and a capacity of acre-feet.

In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

8. Conduit System (describe main conduits only) **None, water will be pumped directly into Mains**

(a) Canal, ditch, flume: Width on top (at water line) / _____ feet; width at bottom _____
Cross out two not used

feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials
of construction _____
Earth, rock, timber, etc.

(b) Pipe line: Diameter _____ inches; length _____ feet; grade _____ feet per
1,000 feet; total ^{fall} from intake to outlet _____ feet; kind _____
Riveted steel, concrete, wood-stave, etc.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion conduit or pumping plant proposed is **300 cfs**
State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is **\$6000**
Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. Construction work will begin on or before **June 1, 1960**

Construction work will be completed on or before **June 1, 1961**

The water will be completely applied to the proposed use on or before **June 1, 1963**

Description of Proposed Use

11. Place of Use. **See Supplement.**
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land

survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.

Do(es) applicant(s) own the land whereon use of water will be made? **No** Jointly? **Yes**
Yes or No Yes or No

All joint owners should include their names as applicants and sign application at bottom of third page.

Most of the land is under option to Tahoe Paradise Homes, the parent company.

If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

CONFORMING TO ORDER OF 2-15-62

IMPORTANT
[Please Read Carefully]

1. Note the terms and conditions of this permit. Construction work must be prosecuted, and the water applied to the beneficial uses intended with due diligence. Annual reports of progress will be expected from you upon forms which will be furnished for the purpose. When the water has been fully applied to the beneficial uses intended the Water Code requires that you notify the State Water Rights Board thereof.
2. Neither this application nor the permit is a water right, but if the terms and conditions of the permit are observed a water right can be obtained through beneficial use of the water—the extent of the right to be determined by a field inspection which will be made by a representative of the State Water Rights Board.
3. No change in point of diversion, or place of use or character of use, can be made under this application and permit without the approval of the State Water Rights Board.
4. If the rights under this permit are assigned immediate notice to that effect with the name and address of the new owner should be forwarded to the State Water Rights Board, Sacramento, California.
5. Please advise immediately of any change of address. Until otherwise advised communications will be sent to the address used in the letter transmitting this permit.

APPLICANT MUST NOT FILL IN BLANKS BELOW

PERMIT No. 13528

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed 3 cubic feet per second to be diverted from January 1 to December 31 of each year. (0000005)
2. The maximum amount herein stated may be reduced in the license if investigation so warrants. (0000006)
3. Actual construction work shall begin on or before July 1, 1962, and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked (0000007)
4. Said construction work shall be completed on or before December 1, 1968. (0000008)
5. Complete application of the water to the proposed use shall be made on or before December 1, 1970. (0000009)
6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued. (0000010)
7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water. (0000012)
8. Permittee shall allow representatives of the State Water Rights Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)
9. The total amount of water appropriated by direct diversion under this application and Applications 18021, 18030, 18038, and 18039 shall not exceed 345 acre-feet in any calendar month or 2,360 acre-feet in any year. (0000114)
10. Permittee shall bypass the following quantities of water into the natural stream bed of the Upper Truckee River at all times:
 - (a) During the months of April, May, and June, 75 cubic feet per second or the total flow of the stream, whichever is less.
 - (b) During July, a flow decreasing gradually from 75 cubic feet per second or the total flow of the stream, whichever is less, to 15 cubic feet per second or the total flow of the stream, whichever is less. The reduction caused by the permittee shall not be greater than 5 cubic feet per second in any one day.
 - (c) During the remainder of the year, 15 cubic feet per second or the total flow, whichever is less. (0140400)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Article 4 of Rules and Regulations Pertaining to Appropriation of Water]

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 18038 Filed March 13, 1958, at 3:55 P. M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

I, Meyers Water Company Notice of Assignment (Over)
Name of applicant
of Meyers County of El Dorado
Address
State of California, do hereby make application for a permit to appropriate the following described unappropriated waters of the State of California, *SUBJECT TO VESTED RIGHTS*:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is Upper Truckee River
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
located in El Dorado County, tributary to Lake Tahoe

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use 3.00 cubic feet per
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day
second, to be diverted from January 1 to December 31 of each year.
Beginning date Closing date

(b) For diversion to be stored and later applied to beneficial use 200 acre-feet
1 acre-foot equals 325,831 gallons
per annum, to be collected between January 1 and December 31 of each season.
Beginning date Closing date

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is Domestic
Domestic, irrigation, power, municipal, mining, industrial, recreational
purposes.

4. The point of diversion is to be located S22° 15' E 3200.00 feet from NW corner of Section
State bearing and distance or coordinate distances from section or quarter section corner
8, T11N, R18E, MDB&M,

being within the NW¹ of SW¹
State 40-acre subdivision of public land survey or projection thereof
of Section 8, T. 11N, R. 18E, M.D. B. & M., in the County of El Dorado

5. The main conduit terminates in SW¹ of SW¹ of Sec. 29, T. 12N, R. 18E, M.D. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping from Sump
Sump, offset well, unobstructed channel, etc.

(b) Diversion will be by gravity, the diverting dam being _____ feet in height (stream bed to level of overflow); _____ feet long on top; and constructed of _____
Concrete, earth, brush, etc.

(c) The storage dam will be 25 feet in height (stream bed to overflow level); 180 feet long on top; have a freeboard of 10 feet, and be constructed of earth
Concrete, earth, etc.

7. Storage Reservoir High Lake
Name

The storage reservoir will flood lands in SW¹ of Section 8 and NE¹ of NW¹ of Section 17, T11N,
Indicate section or sections, also 40-acre subdivisions unless shown upon map R18E, MDB&M.

It will have a surface area of 30 acres, and a capacity of 200 acre-feet.

In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

8. Conduit System (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____ feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials of construction _____
Cross out two not used
Earth, rock, timber, etc.

(b) Pipe line: Diameter 10 inches; length 12,500 feet; grade 6 feet per 1,000 feet; total ^{fall} lift from intake to outlet 75 feet; kind Transite
Riveted steel, concrete, wood-stave, etc.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion conduit or pumping plant proposed is 3.0 cfs
State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is \$82,000
Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. Construction work will begin on or before June 1, 1961

Construction work will be completed on or before June 1, 1962

The water will be completely applied to the proposed use on or before June 1, 1964

Description of Proposed Use

11. Place of Use. See Supplement
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.

Do(es) applicant(s) own the land whereon use of water will be made? No Jointly? Yes
Yes or No Yes or No

Most of land is under option by Tahoe Paradise Homes, the parent company.

If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

Nature of Right (riparian, appropriative, purchased water, etc.)	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1.				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. Irrigation Use. The area to be irrigated is _____ acres.
State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres; orchard _____ acres; general crops _____ acres; pasture _____ acres.

NOTE.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about _____ and end about _____
Beginning date Closing date

14. Power Use. The total fall to be utilized is _____ feet.
Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
Second feet × fall ÷ 8.8

The use to which the power is to be applied is _____
For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water ^{will} be returned to _____ in _____ of _____
will not Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M. _____

A place of use as follows: SW $\frac{1}{4}$ of Section 19; SE $\frac{1}{4}$ and S $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 20; W $\frac{1}{2}$ of SW $\frac{1}{4}$ and SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 22; W $\frac{1}{2}$ of NW $\frac{1}{4}$ and NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 27; N $\frac{1}{2}$, SW $\frac{1}{4}$ and N $\frac{1}{2}$ of SE $\frac{1}{4}$ of Section 28; W $\frac{1}{2}$, SE $\frac{1}{4}$ and S $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 29; Section 30; N $\frac{1}{2}$, and SE $\frac{1}{4}$ of Section 31; and W $\frac{1}{2}$ of Section 32, all in T12N, R18E, MDB&M; W $\frac{1}{2}$ of Section 5; NE $\frac{1}{4}$ and E $\frac{1}{2}$ of SE $\frac{1}{4}$ of Section 6; E $\frac{1}{2}$ of NE $\frac{1}{4}$ and E $\frac{1}{2}$ of SE $\frac{1}{4}$ of Section 7; W $\frac{1}{2}$ of Section 8; W $\frac{1}{2}$, W $\frac{1}{2}$ of NE $\frac{1}{4}$ and W $\frac{1}{2}$ of SE $\frac{1}{4}$ of Section 17; and N $\frac{1}{2}$ of NW $\frac{1}{4}$ and NW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 20; all in T11N, R18E, MDB&M; SE $\frac{1}{4}$ of Section 25 and SE $\frac{1}{4}$ of Section 36, both in T12N, R17E, MDB&M.

CONFORMING TO ORDER OF 2-15-62

IMPORTANT
[Please Read Carefully]

1. Note the terms and conditions of this permit. Construction work must be prosecuted, and the water applied to the beneficial uses intended with due diligence. Annual reports of progress will be expected from you upon forms which will be furnished for the purpose. When the water has been fully applied to the beneficial uses intended the Water Code requires that you notify the State Water Rights Board thereof.
2. Neither this application nor the permit is a water right, but if the terms and conditions of the permit are observed a water right can be obtained through beneficial use of the water—the extent of the right to be determined by a field inspection which will be made by a representative of the State Water Rights Board.
3. No change in point of diversion, or place of use or character of use, can be made under this application and permit without the approval of the State Water Rights Board.
4. If the rights under this permit are assigned immediate notice to that effect with the name and address of the new owner should be forwarded to the State Water Rights Board, Sacramento, California.
5. Please advise immediately of any change of address. Until otherwise advised communications will be sent to the address used in the letter transmitting this permit.

PERMIT No. 13529

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used and shall not exceed 3 cubic feet per second by direct diversion and 200 acre-feet per annum by storage to be diverted and collected from January 1 to December 31 of each year. (0000005)
2. The maximum amount herein stated may be reduced in the license if investigation so warrants. (0000006)
3. Actual construction work shall begin on or before July 1, 1962, and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted, this permit may be revoked. (0000007)
4. Said construction work shall be completed on or before December 1, 1968. (0000008)
5. Complete application of the water to the proposed use shall be made on or before December 1, 1970. (0000009)
6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued. (0000010)
7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water. (0000012)
8. The total amount of water appropriated by direct diversion under this application and Applications 18021, 18030, 18031 and 18039 shall not exceed 345 acre-feet in any calendar month or 2,360 acre-feet in any year. (0000114)
9. Permittee shall bypass the following quantities of water into the natural stream bed of the Upper Truckee River at all times:
 - (a) During the months of April, May, and June, 75 cubic feet per second or the total flow of the stream, whichever is less.
 - (b) During July, a flow decreasing gradually from 75 cubic feet per second or the total flow of the stream, whichever is less, to 15 cubic feet per second or the total flow of the stream, whichever is less. The reduction caused by the permittee shall not be greater than 5 cubic feet per second in any one day.
 - (c) During the remainder of the year, 15 cubic feet per second or the total flow, whichever is less. (0140400)
10. In accordance with Water Code Section 1393, permittee shall clear the site of the proposed reservoir of all structures, trees, and vegetation which would interfere with the use of the reservoir for water storage and recreational purposes. (0120050)
11. A separate application for the approval of plans and specifications for construction of the dam shall be filed with, and approved by, the Department of Water Resources prior to commencement of construction of the dam described under this approved water right application. (0000999)
12. Permittee shall allow representatives of the State Water Rights Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000999)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 18039 Filed March 13, 1958, at 3:56 P. M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER

Notice of Assignment (Over)

I, Meyers Water Company
Name of applicant
of Meyers County of El Dorado
Address
State of California, do hereby make application for a permit to appropriate the

following described unappropriated waters of the State of California, *SUBJECT TO VESTED RIGHTS*:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is Upper Truckee River
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
located in El Dorado County, tributary to Lake Tahoe

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use 3.00 cubic feet per
1 cubic foot per second equals 40 statute miner's inches or 446,317 gallons per day
second, to be diverted from January 1 to December 31 of each year.
Beginning date Closing date

(b) For diversion to be stored and later applied to beneficial use 200 acre-feet
1 acre-foot equals 325,871 gallons
per annum, to be collected between January 1 and December 31 of each season.
Beginning date Closing date

NOTE.—Answer (a) or (b) or both (a) and (b) may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is Domestic
Domestic, irrigation, power, municipal, mining, industrial, recreational
purposes.

4. The point of diversion is to be located N15° 50' E 1420 feet from SW corner of Section 5,
State bearing and distance or coordinate distances from section or quarter section corner
T11N, R18E, MDB&M,

being within the NW¹ of SW¹
State 40-acre subdivision of public land survey or projection thereof
of Section 5, T. 11N, R. 18E, M. D. B. & M., in the County of El Dorado

5. The main conduit terminates in SW¹ of SW¹ of Sec. 29, T. 12N, R. 18E, M. D. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping from Sump
Sump, offset wall, unobstructed channel, etc.

(b) Diversion will be by gravity, the diverting dam being _____ feet in height (stream bed to level of overflow); _____ feet long on top; and constructed of _____
Concrete, earth, brush, etc.

(c) The storage dam will be 20 feet in height (stream bed to overflow level); 210 feet long on top; have a freeboard of 10 feet, and be constructed of earth
Concrete, earth, etc.

7. Storage Reservoir Low Lake
Name

The storage reservoir will flood lands in SW¹ of SW¹ of Section 5, NW¹ of NW¹ and SW¹ of NW¹ of Section 8, T11N, R18E, MDB&M.
Indicate section or sections, also 40-acre subdivisions unless shown upon map
It will have a surface area of 32 acres, and a capacity of 200 acre-feet.
In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

8. Conduit System (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) _____ feet; width at bottom _____ feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials of construction _____
Cross put two not used
Earth, rock, timber, etc.

(b) Pipe line: Diameter 10 inches; length 8500 feet; grade 6 feet per 1,000 feet; total ^{fall} lift from intake to outlet 50 feet; kind Transite
Riveted steel, concrete, wood-stave, etc.

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion conduit or pumping plant proposed is 3.0 cfs
State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is \$55,000
Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. Construction work will begin on or before June 1, 1961

Construction work will be completed on or before June 1, 1962

The water will be completely applied to the proposed use on or before June 1, 1964

Description of Proposed Use

11. Place of Use. See Supplement
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.

Do(es) applicant(s) own the land whereon use of water will be made? No Jointly? Yes
Yes or No Yes or No

Most of land is under option to Tahoe Paradise Homes, the parent company.
If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

Nature of Right (riparian, appropriative, purchased water, etc.)	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1.				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. Irrigation Use. The area to be irrigated is _____ acres.
State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres; orchard _____ acres; general crops _____ acres; pasture _____ acres.

NOTE.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about _____ and end about _____
Beginning date Closing date

14. Power Use. The total fall to be utilized is _____ feet.
Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
Second feet × fall ÷ 8.8

The use to which the power is to be applied is _____
For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water ^{will} be returned to _____ in _____ of _____
will not Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, _____ B. & M.

CONFORMING TO ORDER OF 7-15-62

IMPORTANT
[Please Read Carefully]

1. Note the terms and conditions of this permit. Construction work must be prosecuted, and the water applied to the beneficial uses intended with due diligence. Annual reports of progress will be expected from you upon forms which will be furnished for the purpose. When the water has been fully applied to the beneficial uses intended the Water Code requires that you notify the State Water Rights Board thereof.
2. Neither this application nor the permit is a water right, but if the terms and conditions of the permit are observed a water right can be obtained through beneficial use of the water—the extent of the right to be determined by a field inspection which will be made by a representative of the State Water Rights Board.
3. No change in point of diversion, or place of use or character of use, can be made under this application and permit without the approval of the State Water Rights Board.
4. If the rights under this permit are assigned immediate notice to that effect with the name and address of the new owner should be forwarded to the State Water Rights Board, Sacramento, California.
5. Please advise immediately of any change of address. Until otherwise advised communications will be sent to the address used in the letter transmitting this permit.

PERMIT No. 13530

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used and shall not exceed 3 cubic feet per second by direct diversion and 200 acre-feet per annum by storage to be diverted and collected from January 1 to December 31 of each year. (0000005)
2. The maximum amount herein stated may be reduced in the license if investigation so warrants. (0000006)
3. Actual construction work shall begin on or before July 1, 1962, and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted, this permit may be revoked. (0000007)
4. Said construction work shall be completed on or before December 1, 1968. (0000008)
5. Complete application of the water to the proposed use shall be made on or before December 1, 1970. (0000009)
6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued. (0000010)
7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water. (0000012)
8. The total amount of water appropriated by direct diversion under this application and Applications 18021, 18030, 18031 and 18038, shall not exceed 345 acre-feet in any calendar month or 2,360 acre-feet in any year. (0000114)
9. Permittee shall bypass the following quantities of water into the natural stream bed of the Upper Truckee River at all times:
 - (a) During the months of April, May, and June, 75 cubic feet per second or the total flow of the stream, whichever is less.
 - (b) During July, a flow decreasing gradually from 75 cubic feet per second or the total flow of the stream, whichever is less, to 15 cubic feet per second or the total flow of the stream, whichever is less. The reduction caused by the permittee shall not be greater than 5 cubic feet per second in any one day.
 - (c) During the remainder of the year, 15 cubic feet per second or the total flow, whichever is less. (0140400)
10. In accordance with Water Code Section 1393, permittee shall clear the site of the proposed reservoir of all structures, trees, and vegetation which would interfere with the use of the reservoir for water storage and recreational purposes. (0120050)
11. A separate application for the approval of plans and specifications for construction of the dam shall be filed with, and approved by, the Department of Water Resources prior to commencement of construction of the dam described under this approved water right application. (0000994)
12. Permittee shall allow representatives of the State Water Rights Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000999)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

15. Municipal Use. This application is made for the purpose of serving _____
Name city or cities, town or towns. Urban areas only
_____ having a present population of _____

The estimated average daily consumption during the month of maximum use at the end of each five-year period until the full amount applied for is put to beneficial use is as follows:

16. Mining Use. The name of the mining property to be served is _____
Name of claim
_____ and the nature of the mines is _____
Gold placer, quartz, etc.

The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____
Cubic feet per second, gallons per minute. State basis of estimate

The water will will not be polluted by chemicals or otherwise _____
Explain nature of pollution, if any

and it will will not be returned to _____ in _____ of
Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M. _____

17. Other Uses. The nature of the use proposed is Domestic service to a gross area of
Industrial, recreational, domestic, stockwatering, fish culture, etc.
3160 acres.

State basis of determination of amount needed. It is estimated that the area to be served will
Number of persons, residences, ares of domestic lawns and gardens, number and kind of stock, type
eventual have a population of 28,000 persons, requiring 14.5 cubic feet per second.
Industrial use, and unit requirements.

General

18. Are the maps as required by the Rules and Regulations filed with Application? yes If not, state specifically the time required for filing same _____
Yes or No

19. Does the applicant own the land at the proposed point of diversion? no If not, give name and address of owner and state what steps have been taken to secure right of access thereto. George J. Hanlon
Yes or No

10,527 Coloma Road, Rancho Cordova - Applicant is a Public Utility and has power of eminent Domain.

20. What is the name of the post office most used by those living near the proposed point of diversion?
Meyers, California

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion? Not known.

/s/ Jim A. E. Wilson, President
Meyers Water Company.

[SIGNATURE OF APPLICANT]

Exhibit 6

[For full information concerning the filling out of this form refer to Article 4 of Rules and Regulations Pertaining to Appropriation of Water]

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 19629 Filed July 28, 1960, at 2:22 P.M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER
 AMENDED APPLICATION RECEIVED September 12, 1960

Notice of Assignment (Over)

I, Meyers Water Company, a California Corporation
Name of applicant or applicants
 of 1018 - 22nd Street, Sacramento County of El Dorado
Address
 State of California, do hereby make application for a permit to appropriate the following described unappropriated waters of the State of California, *SUBJECT TO VESTED RIGHTS*:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is Coyote Creek
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
 located in El Dorado County, tributary to Upper Truckee River thence Lake Tahoe

2. The amount of water which applicant desires to appropriate under this application is as follows:
 (a) For diversion to be directly applied to beneficial use 2.33 cubic feet per second, to be diverted from January 1 to December 31 of each year.
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day
Beginning date Closing date

(b) For diversion to be stored and later applied to beneficial use 104 acre-feet per annum, to be collected between October 1 and June 1 of each season.
1 acre-foot equals 325,851 gallons
Beginning date Closing date

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is domestic
Domestic, irrigation, power, municipal, mining, industrial, recreational
 purposes.

4. The point of diversion is to be located S 78° - W 4300' from the ^{E 1/4} corner of Section 25,
State bearing and distance or coordinate distances from section or quarter section corner
T12N, R17E, MDB&M,

being within the NW 1/4 of SW 1/4
State 40-acre subdivision of public land survey or projection thereof
 of Section 25, T. 12N, R. 17E, M.D. B. & M., in the County of El Dorado

5. The main conduit terminates in NW 1/4 of SW 1/4 of Sec. 30, T. 12N, R. 18E, M. D. B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)
 (a) Diversion will be made by pumping from _____
Sump, offset well, unobstructed channel, etc.
 (b) Diversion will be by gravity, the diverting dam being _____ feet in height (stream bed to level of overflow); _____ feet long on top; and constructed of _____
Concrete, earth, brush, etc.
 (c) The storage dam will be 12 feet in height (stream bed to spillway level); 100 feet long on top; have a freeboard of 4 feet, and be constructed of concrete and earth
Concrete, earth, etc.

7. Storage Reservoir Osgood Reservoir
Name
 The storage reservoir will flood lands in U. S. Forest Service Area
Indicate section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of 13 acres, and a capacity of 104 acre-feet. If reservoir has a capacity of 25 acre-feet or more fill in the following: Diameter of outlet pipe _____ inches; length _____ feet; difference in elevation from spillway level to highest point of outlet pipe _____ feet; fall in pipe _____ feet.
 In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

8. Conduit System (describe main conduits only)

(a) Canal, ditch, flume: Width on top (at water line) None Proposed feet; width at bottom _____
Cross out two not used

feet; depth of water _____ feet; length _____ feet; grade _____ feet per 1,000 feet; materials of construction _____
Earth, rock, timber, etc.

(b) Pipe line: Diameter 12 inches; length 4500 feet; grade 169 feet per 1,000 feet; total ~~fall~~ ^{fall} from intake to outlet 760 feet; kind double dipped and wrapped welded steel
Riveted steel, concrete, wood-stave, etc. not less than 10 guage

NOTE.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

9. The estimated capacity of the diversion conduit or pumping plant proposed is 16.2
State cubic feet per second or gallons per minute

The estimated cost of the diversion works proposed is \$ 102,000.00
Give only cost of intake, or headworks, pumps, storage reservoirs and main conduits described herein

Completion Schedule

10. Construction work will begin on or before December 31, 1962

Construction work will be completed on or before December 31, 1963

The water will be completely applied to the proposed use on or before December 31, 1975

Description of Proposed Use

11. Place of Use. See supplement
State 40-acre subdivisions of the public land survey. If area is unsurveyed indicate the location as if lines of the public land

survey were projected. In the case of irrigation use state the number of acres to be irrigated in each 40-acre tract, if space permits. If space does not permit listing of all 40-acre tracts, describe area in a general way and show detail upon map.

Do(es) applicant(s) own the land whereon use of water will be made? No Jointly? No
Yes or No Yes or No

All joint owners should include their names as applicants and sign application at bottom of third page.

If applicant does not own land whereon use of water will be made, give name and address of owner and state what arrangements have been made with him.

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands. none

Nature of Right <small>(riparian, appropriative, purchased water, etc.)</small>	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1.				
2.				
3.				
4.				

Attach supplement at top of page 3 if necessary.

13. Irrigation Use. The area to be irrigated is _____ acres.
State net acreage to be irrigated

The segregation of acreage as to crops is as follows: Rice _____ acres; alfalfa _____ acres;

orchard _____ acres; general crops _____ acres; pasture _____ acres.

NOTE.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

The irrigation season will begin about _____ and end about _____
Beginning date Closing date

14. Power Use. The total fall to be utilized is _____ feet.
Difference between nozzle or draft tube water level and first free water surface above

The maximum amount of water to be used through the penstock is _____ cubic feet per second.

The maximum theoretical horsepower capable of being generated by the works is _____ horsepower.
Second feet × fall ÷ 8.8

The use to which the power is to be applied is _____
For distribution and sale or private use, etc.

The nature of the works by means of which power is to be developed is _____
Turbine, Pelton wheel, etc.

The size of the nozzle to be used is _____ inches.

The water ^{will} ~~will not~~ be returned to _____ in _____ of
Name stream State 40-acre subdivision

PERMIT No. 14335

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed 2.33 cubic feet per second by direct diversion to be diverted year-round and 104 acre-feet per annum by storage to be collected from about October 1 of each year to about June 1 of the succeeding year. The instantaneous rate of diversion under the permit may exceed 2.33 cfs, provided that the amount of water appropriated by direct diversion shall not exceed 143 acre-feet in any month (equivalent to a continuous flow of 2.33 cfs.). (000 0005)

2. The maximum amount herein stated may be reduced in the license if investigation warrants. (000 0006)

3. Actual construction work shall begin on or before July 1, 1966, and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked. (000 0007)

4. Said construction work shall be completed on or before December 1, 1969. (000 0008)

5. Complete application of the water to the proposed use shall be made on or before December 1, 1970. (000 0009)

6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued. (000 0010)

7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water. (000 0012)

8. Permittee shall allow representatives of the State Water Rights Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (000 0011)

9. The permittee shall release at all times into the natural channel of Coyote Creek, immediately below Coyote Dam, a flow of 0.25 cubic foot per second, or the natural flow, whichever is less, to maintain fishlife. (0140060)

10. Permittee shall install and maintain an outlet pipe of adequate capacity in his dam as near as practicable to the bottom of the natural stream channel or provide other means satisfactory to the State Water Rights Board in order that water entering the reservoir or collected in the reservoir during and after the current storage season may be released into the downstream channel to the extent necessary to satisfy downstream prior rights and/or to the extent that appropriation of said water is not authorized under this permit. (0050043)

11. Permittee shall install and maintain suitable measuring devices (a) upstream from the high-water elevation of his reservoir and (b) immediately below his storage dam in order that accurate measurement can be made of the quantity of water flowing into and out of said reservoir. (0060046)

12. In accordance with the requirements of Water Code Section 1393, permittee shall clear the site of the proposed reservoir of all structures, trees, and other vegetation which would interfere with the use of the reservoir for water storage and recreational purposes. (0120050)

13. A separate application for approval of plans and specifications for construction of the dam described in this approved water right application shall be filed with and approved by the Department of Water Resources prior to commencement of construction of the dam. (0360048)

14. The total amount of water appropriated by direct diversion under permits issued pursuant to Applications 18021, 18030, 18031, 18038, 18039, and 19629 shall not exceed 345 acre-feet in any calendar month, and total diversions under said permits shall not exceed 2,760 acre-feet in any year. (000 0114)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

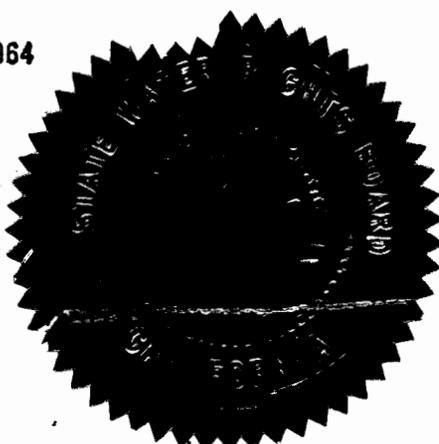

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).
